Lifting capacity

- Patient safety and comfort must be combined with functionality and easy operation for healthcare providers. This is the idea behind all care products from Rehab-Care.
- We develop, manufacture and supply all products in-house which means that we quickly translate words into action. We are able to respond very quickly to general tendencies and to meet unique requirements for product adaptation and innovation, both physically and technologically. Rehab-Care products ensure flexible patient examination, treatment and care for all involved parties.
