

## LIFTS

Designed to ensure optimum working conditions for the staff and maximum comfort for the user

We observe all legislation and government requirements, including the European Directive 93/42/EEC on medical devices. We are certified according to EN/ISO 13485, and all our products are CE-marked.

## Arm and leg lift

Our arm and leg lift, which we have great success with, is used in the handling and disinfection of arms and legs before operation, or other heavy lifting jobs on patients.

Arm and leg lifter can be adjusted to various heights, so the user has the correct working position, which is important in relation to working environment. Very large lifting range of 75 cm. Easy to move around and with 4 brake wheels.

Product no.: **BL-H**  
HMI no.: **72972**

## Cathy patient lift

Cathy stand-up lift is a stable and comfortable transfer lift. Equipped with the latest technology and the best components, to ensure the best durability and function.

A hoist which is easy to work with, since it has the best quality wheels and parts made for good handling.

Product no.: **PR-3500-200-S**  
HMI no.: **71368**

## Mary patient lift

Mary patient lift is for the stable and comfortable transfers. Equipped with the latest technology and the best components, to ensure the best durability and function.

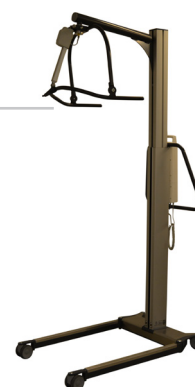

A hoist which is easy to work with, since it has the best quality wheels and parts made for good handling.

Product no.: **PR-3500-205**  
HMI no.: **71370**

## Emmy patient lift

Emmy patient lift, vertical lift with 3-part column, is for the stable and comfortable transfers. Equipped with the latest technology and the best components, to ensure the best durability and function.

Product no.: **PS-46000**  
HMI no.: **115025**

## Pool lift, complete

The pool lift is designed to transfer patients in the pool, in a safe way. It comes with a separate chair that allows transfer in dressing room. Large action radius for lifting arm.

The pool lift is handling a user which is placed in the chair, mounted to the lifting arm at the pool lift.

Product no.: **PO-10000**

HMI no.: **89914**

## Bed lifter

Bed lift to the user's own home bed, made to fit all types of elevation beds purchased privately, mounted under the users own bed.

Bed lifter has the same lifting system as known from hospital beds, high lifting height for proper working position and stable lifting from the ground and up. Eliminates the need for nursing bed in the home and can be mounted so the double bed can be preserved.

Product no.: **SE-11000**

HMI no.: **79748**

## Bed turner

Hospital bed service trolley for servicing, maintenance and cleaning. Lifts all bed types from the floor and can further tilt the bed, so that all work on the bed may be done in correct working position.

Easy to operate and move round. The levers can be adjusted in all directions and turned, so lift underneath the lying surface is also possible.

Product no.: **SV400**

rehab-care®

# WE HELP YOU MAKE A DIFFERENCE

Rehab-Care develops, manufactures, services and repairs high-quality equipment and aids for the nursing and health sectors – e.g. hospitals, medical clinics and nursing homes.

At Rehab-Care the user's demands and needs are always in focus in the development and production of equipment and aids for hospitals, clinics and the nursing sector.

All Rehab-Care products are designed to ensure optimum working conditions for the staff and maximum comfort for the user.

We have detailed knowledge of all models, and we can customize our products to suit functional as well as aesthetic needs.

Our products need to be practical and functional, but we want them to look great too. If you have special wishes for e.g. upholstery colour, etc., we will customize it to suit your wishes and needs.

Your daily life should not be disrupted by long periods of interruption. We therefore service equipment on a day-to-day basis. We offer this service for both our own and third-party products.

All our prototypes are tested in co-operation with the Danish Technological Institute and other external consultants.
