

## REST- AND TRANSPORT COUCHES AND CHAIRS

Designed to ensure optimum working conditions for the staff and maximum comfort for the user

We observe all legislation and government requirements, including the European Directive 93/42/EEC on medical devices. We are certified according to EN/ISO 13485, and all our products are CE-marked.

## DayCare chair with coushins or mattress

DayCare chair designed for day surgery departments and dialysis. Used as therapy chair, examination and treatment chair.

Best seating comfort and many adjustment possibilities. Good handling, with fold-away and removable armrests. Everything is made resilient for daily use and can easily be kept clean. Developed in close collaboration with staff in hospitals.

We are very responsive, if there are good ideas for improvements. The DayCare chair is used by hospitals and the healthcare sector. Used as a transport chair between surgery and recovery or for prior study of patients. The couch can be equipped with many accessories, as it is widely used in many departments.

## 2-part rest- and transport couch with scissor or column lift

Good ergonomics, user-friendly and easily movable couch. Universal couch for both patients and staff, with a focus on accessibility and stability. The couch can be lowered for easy access from a wheelchair. Fold-away bed guards, so the mattress surface is the total width of the couch. Central brake system.

Head/foot board removable, can be flipped around and parked. IV pole suspension in all 4 corners. Lying surface with mattress and compact laminate under. Mattress holders.

### 2-part rest- and transport couch with scissor lift

Product no.: **AKUT-4000**

### 2-part rest- and transport couch with column lift

Product no.: **AKUT-3500**

## 3-part transfer couch

Transfer couch made with a tilt function along the length of the couch, is used for transfers over to a OP-table. By tilting the lying surface, the patient is turned 180 degree over to the OP-table.

There is chrome frame that protects cushions from collisions. Artificial leather in a quality that can withstand cleaning in alcohol and chlorine. High quality foam in the cushions for best comfort.

The couch can be lowered for easy access from a wheelchair. Large backrest angle adjustment for optimal seating position. Central brake system.

### 3-part transfer couch

Product no.: **FYS-VIP**

rehab-care®

# WE HELP YOU MAKE A DIFFERENCE

Rehab-Care develops, manufactures, services and repairs high-quality equipment and aids for the nursing and health sectors – e.g. hospitals, medical clinics and nursing homes.

At Rehab-Care the user's demands and needs are always in focus in the development and production of equipment and aids for hospitals, clinics and the nursing sector.

All Rehab-Care products are designed to ensure optimum working conditions for the staff and maximum comfort for the user.

We have detailed knowledge of all models, and we can customize our products to suit functional as well as aesthetic needs.

Our products need to be practical and functional, but we want them to look great too. If you have special wishes for e.g. upholstery colour, etc., we will customize it to suit your wishes and needs.

Your daily life should not be disrupted by long periods of interruption. We therefore service equipment on a day-to-day basis. We offer this service for both our own and third-party products.

All our prototypes are tested in co-operation with the Danish Technological Institute and other external consultants.
