

Gaja chair 2-piece leg

PRODUCT NO: DRP-27000

GAJA CHAIR 2-PIECE LEG

Gaja Treatment chair for hospitals and health sector. The chair is equipped with central lifting, which does not take up unnecessary space around the user. Height, back, and leg adjustment is with wireless bluetooth hand control or foot control so cords don't get in the way. Different armrests can be selected to perfectly suit the user's needs in everyday life. This model has 2 split legs, so you can keep focus on the individual leg during examinations.
