

# Jumper saddlechair

Jumper ergonomic saddle-chair is designed to promote a secure sitting posture, strengthen the back and prevent pain. The chair is of high quality, the padding has a high wear resistance and is easy to clean. The chair is designed to allow the user to easily inspect patients close without the chair getting in the way.

## JUMPER SADDLECHAIR

The unique adjustable balance mechanism keeps the back and lower back in balance when the user changes position, and reduces pressure on the thighs for an even more comfortable seating position
